***Installation*** **\$155**

---

# *ATU 200 compatibility is coming Fall 09'*

## *RowCommand Clutches*

---

### **WHAT DO YOU NEED?**

**YOU MUST HAVE SEED STAR 2! (All 09 Planters come with SeedStar 2)**

*-You can upgrade Seedstar 1 controllers to SeedStar2 – (\$1270)*

**YOU MUST HAVE GS2 2600**

**YOU MUST HAVE SWATH CONTROL PRO**

**YOU MUST HAVE PRO SHAFT DRIVE**

### *What Is RowCommand?*

*-Allows 16 sections to shut off/turn on. ( If an Electronic Clutch fails, the planter will still plant)*

*-Individual electric clutches integrated with the Pro-Shaft Drive gearboxes, minimize overlap, reduce seed costs, reduce yield drag, and improve harvest capabilities.*

*-Used with Swath Control Pro, it gives a planter the ability to engage and disengage individual row clutches using a GPS Coverage Map.*

*-When used with SeedStar 2 Monitoring Row Command eliminates the need for the GS2 Rate Controller.*

### ***RowCommand BreakDown for 09' planters***

#### **5 Basic Required Components needed to Run RowCommand**

***Low amp electric clutches (Included in \$500/row)***

***Electronic Power Modules (Included in \$500/row)***

***Row Unit Wiring Harness (Included in \$500/row)***

***SeedStar 2 monitoring-option Code 4025- (Wedge box/controller)***

***GreenStar 2 Display (0705pc) (\$4,995)***

## *IGuide (Passive Implement Guidance)*

---

### **WHAT DO YOU NEED?**

**YOU MUST HAVE 2 RTK GLOBES**

**YOU MUST HAVE GS2 2600**

**YOU MUST HAVE THE IGUIDE ACTIVATION**

**YOU MUST HAVE IGUIDE IMPLEMENT MAST AND HARNESSSES**

**FULL RELEASE SUMMER 09' RTK ONLY**

### **PRICING:**

**RTK Globe, Activations, Mast, Harnesses = \$10500-\$12500)**
